JPM Natural Resources Fund C - Net Accumulation a Share Class of JPM Natural Resources Fund a Fund of JPMorgan Fund ICVC

ISIN GB00B88MP089

The Authorised Corporate Director ("ACD") is JPMorgan Funds Limited

Objective and Investment Policy

Investment Objective: To invest, primarily in the shares of, companies throughout the world engaged in the production and marketing of commodities. The Fund aims to provide capital growth over the long term.

Investment Approach:

- ▶ Uses a fundamental, bottom-up stock selection process.
- ▶ Investment process built on leveraging the insights of a global analyst team to identify attractively valued companies using a quality and growth framework.
- ▶ Targets companies with the most attractive growth profile, that seek to expand production and successfully replace depleting reserves.

Investment Policy: The Fund will have exposure to smaller companies and may invest in Emerging Markets.

The Fund may also use Financial Derivative Instruments (derivatives) for the purpose of Efficient Portfolio Management, including hedging, where appropriate.

The Fund may invest in assets denominated in any currency and non-Sterling currency exposure may be hedged back to Sterling.

Redemption and Dealing: Shares of the Fund may be redeemed on demand, with dealing normally on a daily basis.

Benchmark: The benchmark of the Fund is EMIX Global Mining & Energy Index (Net).

The Fund is actively managed. The Benchmark is a performance comparator and the Fund may bear little resemblance to its Benchmark. The Benchmark has been chosen as it reflects the main investment universe and strategy for the Fund.

Distribution Policy: This Share Class will reinvest income.

Risk and Reward Profile

The above rating is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

Why is this Share Class in this category? This Share Class is classified in category 6 because its Net Asset Value has shown high fluctuations historically.

Other material risks:

- ▶ The value of your investment may fall as well as rise and you may get back less than you originally invested.
- ▶ The value of equity and equity-linked securities may fluctuate in response to the performance of individual companies and general market conditions.

- ▶ Emerging markets may be subject to increased political, regulatory and economic instability, less developed custody and settlement practices, poor transparency and greater financial risks. Emerging market currencies may be subject to volatile price movements. Emerging market securities may also be subject to higher volatility and be more difficult to sell than non-emerging market securities.
- ▶ The Fund invests in securities of smaller companies which may be more difficult to sell, more volatile and tend to carry greater financial risk than securities of larger companies.
- ▶ The Fund will be concentrated in natural resources companies and may be concentrated in one or more countries. As a result, the Fund may be more volatile than more broadly diversified funds.
- ▶ The value of companies in which the Fund invests may be influenced by movements in commodity prices which can be very volatile.
- ▶ This Fund is aggressively managed, which may result in higher volatility of the Fund's performance and bigger differences between the performance of the Fund and its benchmark.
- ▶ Movements in currency exchange rates can adversely affect the return of your investment.
- ▶ Further information about risks can be found in "Part 11: Risk Warnings" of the Prospectus.
